

Get a Flu Shot

**If You Have Asthma, COPD,
Heart Disease, Diabetes**

- If you have a chronic medical condition a flu shot is probably an important health tool for you.
- Influenza immunizations are available through primary care providers, pharmacies and other public places.
- Visit the American Lung Association Web site to locate an influenza vaccine clinic near you.

Protect Yourself. Get Vaccinated.

Contact your primary care provider
Or find a flu vaccine clinic at:
